ABSOLUTE QUALITY, STATE OF THE ART TECHNOLOGY, SUPERLATIVE STYLING AND A PASSION FOR DETAIL. ORIGINAL APRILIA ACCESSORIES EMBODY THE SAME QUALITIES THAT HAVE EARNED THIS GREAT MOTORCYCLE BRAND A PLACE OF HONOUR IN THE HEARTS OF THE WORLD'S MOST PASSIONATE AND DISCERNING RIDERS. CONCEIVED THROUGH UNPARALLELED TECHNICAL EXPERIENCE ON THE TRACK AND ON THE ROAD. PUT THROUGH THEIR PACES BY APRILIA'S OWN STRICT TEST RIDERS TO ENSURE THAT THEY CATER FOR EVERY PRACTICAL REQUISITE AND RIDING STYLE: FROM HYPERSPORTS AND NAKEDS TO OFF-ROAD BIKES. CREATED TO COMPLEMENT THE JOY OF OWNING AN APRILIA WITH THE PLEASURE OF PERSONALISING IT WITH YOUR OWN HANDS, ENHANCING ITS PERFORMANCE AND MAKING IT EVEN MORE PRESTIGIOUS AND UNIQUE.

# EXHAUST SYSTEMS

Drawing directly from motorsports, developed in collaboration with the leading experts in the sector, manufactured with machinery ensuring precision to a hundredth of a millimetre and hand welding, and extensively tested on the bench and on the track: a range of exhaust systems offering class beating excellence and performance. Products designed to maximise engine power, improve handling and control and reach new heights in terms of aerodynamics and lightness through the use of prestigious materials such as titanium and carbon. These exhaust systems may be used in conjunction with exclusive ECU mapping developed specifically for each Aprilia motorcycle model, while undoing the single screw fastening the “dB killer” device onto a street legal exhaust system lets you unleash the maximum performance possible for track use: are you ready to experience the same adrenaline rush as the world's champion racers?

# HI-TECH PERFORM ANCE

From Aprilia's experience on racetracks all over the world comes an exclusive selection of components developed to maximise performance and severely tested in all conditions. Professional kits for the footrests, gearbox and suspension using the most advanced racing technology that are easy to install on their respective models and easily adjustable to suit personal preferences. Wheel rims forged with the same processes used in F1 to set previously unthinkable new standards for handling and lightness. Demand the best in every detail: choose Aprilia.

# HI-TECH LOOKS

Take your passion for technology and performance to the next level with the range of original Aprilia components. The extreme lightness and unmistakable appearance of carbon, the prestige and perfection of parts in billet aluminium, the technical quality of screws and fasteners in Ergal and the professional look of exclusive accessories. Everything you need to express your own riding style and a guarantee of total satisfaction, riding pleasure and reliability: whether on the track or on the road.

# COMFORT QUALITY

Experience unparalleled safety and comfort with original Aprilia accessories. Everything from bags, panniers and backpacks ensuring total robustness, protection and dynamic stability to special ergonomic saddles. A choice of accessories that have been specifically designed and tested for each Aprilia model to let you express your passion for riding and fulfil your desire for freedom. For a weekend in the saddle of your bike to long journeys through natural vistas and along endless motorways, accompanied always by the quality and style of Aprilia.

AKRAPOVIC EVO1 COMPLETE RACING EXHAUST SYSTEM

AKRAPOVIC EVO2 COMPLETE RACING EXHAUST SYSTEM RSV4 APRC

CARBON	2.870.-	894732
TITANIUM	2.748.-	897318
CARBON	2.870.-	899444
TITANIUM	2.870.-	899445

• Complete Akrapovic racing exhaust system for track use made entirely from titanium with oval muffler in carbon or titanium • The cylinder head mating flanges are machined from solid billet aluminium while the silencer mounting brackets are in carbon fibre • The whole system weighs less than 5 kg and delivers a healthy increase in torque above 4,500 rpm, which is particularly notable from 4,500 to 8,000 rpm, significantly improving acceleration out of turns • Includes dedicated ECU mapping (with three R/S/T settings) to exploit the full potential of the exhaust • Unlike the standard ECU mapping, all three R, S and T maps deliver unlimited power - the S ECU mapping offers smoother response, whereas the R mapping limits torque in the first three gears • For track use only

AKRAPOVIC HOMOLOGATED SLIP-ON EXHAUST KIT INCLUSIVE OF RACING HEADER

CARBON	1.440.-	B043763
TITANIUM	1.440.-	B043764

• The kit consists of a hexagonal cross section carbon fibre or titanium silencer with extractable Db-killer, titanium header with catalytic converter, and titanium racing header with no catalytic converter • In the configuration with the Db-killer installed and the header with catalytic converter, the exhaust is homologated compliant with Euro3 sections 5 and 9 (emissions and noise) and may be used on public roads without modifying carburetion parameters • Fits onto the standard exhaust header and fastened to the passenger footrest with a specific bracket • An aluminium bracket is available separately for fastening the silencer to the bike without the passenger footrest • When replacing the header with the component supplied in the kit with no catalytic converter and removing the Db-killer, the exhaust system is considered a racing system and loses homologation, and can no longer be used on the public road. In this case, the specific ECU mapping - included with the kit on request - must be installed using the same procedure as used for the complete Evo Racing exhaust

**ALUMINIUM BRACKET KIT  
FOR COMPLETE EVO RACING EXHAUST**

**126.-**  
**895430**

- Aluminium silencer mounting bracket
- For track use only

**ALUMINIUM BRACKET KIT  
FOR SLIP-ON EXHAUST**

**138.-**  
**896180**

- Aluminium silencer mounting bracket
- For a sportier configuration with no passenger footpegs
- For track use only

**RACE ECU KIT FOR RSV4**

**600.-**  
**896309**

- Dedicated engine control unit for track use, pre-programmed with racing ECU mappings
- For use on bikes fitted with aftermarket exhaust systems (complete systems or slip-on muffler) NOT supplied by Aprilia
- Recommended for use in combination with exhausts with no catalytic converter, with or without Db-killer
- Dedicated ECU mapping (with three R/S/T settings) to exploit the full potential of the exhaust
- Unlike the standard ECU mapping, all three R, S and T maps deliver unlimited power - the S ECU mapping offers smoother response, whereas the R ECU mapping limits torque in the first three gears
- After installation of ECU by an authorised Aprilia service centre, later updates may be downloaded and installed
- For track use only

**ADJUSTABLE ALUMINIUM FOOTPEG KIT  
ADJUSTABLE FOOTREST KIT IN ALUMINIUM  
FOR RSV4 APRC**

**912.-**  
**936.-**  
**894864**  
**899814**

- Made entirely from billet aluminium
- Adjustable with 9 different footpeg settings
- Fine adjustment of gear and brake levers
- With provision for standard brake light switch and for inverted gear lever installation
- For track use only

RACING CHAIN	318.-	895408	<ul style="list-style-type: none"><li>• Racing final drive kit for RSV4, consisting of:</li><li>• Regina Racing ORNV6W chain with 520 pitch (used by the major Superstock world championship teams)</li><li>• Hard anodised Ergal sprocket (40 or 42 teeth)</li><li>• Lightweight steel pinion (15 or 16 teeth)</li><li>• For track use only</li></ul> <p>The following possible combinations may be installed to reduce rotating masses (all components are lighter than their standard counterparts, the whole kit saves weight by 850 g) and improve acceleration:</p> <ul style="list-style-type: none"><li>- chain, sprocket with 40 teeth and pinion with 16 teeth (drive ratio 2.500 - same as standard)</li><li>- chain, sprocket with 42 teeth and pinion with 16 teeth (drive ratio 2.625 - shorter than standard)</li><li>- chain, sprocket with 40 teeth and pinion with 15 teeth (drive ratio 2.667 - even shorter)</li><li>- chain, sprocket with 42 teeth and pinion with 15 teeth (drive ratio 2.800 - even shorter)</li></ul>
SPROCKET IN HARD ANODIZED ERGAL FOR RACING CHAIN	Z = 40 84.- Z = 42 84.-	896164 896165	
PINION FOR RACING CHAIN	Z = 15 32.- Z = 16 32.-	896167 896168	

ATTENTION: THIS COMBINATION REQUIRES THE USE OF THE 520 PITCH RACING CHAIN - THE SPROCKET AND PINION CANNOT BE USED WITH THE STANDARD CHAIN OR IN COMBINATIONS WITH THE STANDARD SPROCKET AND PINION

N.B.: IT IS RECOMMENDED THAT THE FINAL DRIVE COMPONENTS ARE REPLACED EVERY 4000 KM OR EARLIER IF SIGNS OF EXCESSIVE WEAR ARE NOTED (DEPENDING ON RIDING STYLE AND CONDITIONS)

RACING SEMI-HANDLEBARS KIT  
RACING SEMI-HANDLEBARS KIT RSV4 APRC

330.-  
359.-

894865  
B043579

- With collars machined from billet aluminium
- For a more effective riding position for sports use
- For track use only

LICENSE PLATE HOLE CAP KIT

59,90  
895322

- In laser-cut steel
- With laser-cut logos
- Permits removal of license plate for track use
- For track use only

ADJUSTABLE LICENSE PLATE MOUNTING KIT

192.-  
895323

- In laser-cut steel
- With white LED license plate light
- Gives the bike a sleeker and sportier look
- For track use only

CAP KIT FOR MIRROR MOUNT HOLES

60.-  
895320

- In billet aluminium • With laser-cut logos
- Permits removal of mirrors for track use
- For track use only

BRAKE LEVER  
CLUTCH LEVER

126.-  
126.-  
895324  
895325

- In billet aluminium • Lightweight with anodised black finish
- Brake lever still maintains millimetre-precise adjustability
- Clutch lever with improved ergonomics
- For track use only

CRASH PADS KIT FOR "FACTORY" VERSION

276.-  
894863

- Machined from solid nylon • Mountings in billet aluminium
- Distinctive triangular design • For "Factory" version only

CRASH PADS KIT FOR "R" VERSION

276.-  
896353

- Machined from solid nylon • Mountings in billet aluminium
- Distinctive triangular design • For "R" version only

HANDLEBAR COUNTERWEIGHT KIT

71.-  
895326

- In billet aluminium • With black nylon cap and laser-cut logos
- Design with concealed fastener screw

STAND PIN KIT

71.-  
895321

- In billet aluminium • Laser-cut logos
- Protective nylon crash pad
- Design with concealed fastener screw

**EXTRA LARGE WINDSHIELD KIT**

**139.-**  
**894862**

- Taller windshield in thermoformed polycarbonate
- Tinted
- For track use only

**ALUMINIUM FRONT WHEEL RIMS  
BLACK FORGED REAR WHEELS**

**1.356.-**  
**1.440.-**  
**895409**  
**895410**

- Made from forged aluminium alloy
- Engineered using advanced simulation and modelling tools such as FEM analysis, these wheel rims offer a weight saving over the standard (cast)\* components while still ensuring unrivalled robustness
- The resulting reduction in gyroscopic effect and unsprung weight translates to unparalleled responsiveness and agility
- Standard on RSV4 Factory

\* on MY09 RSV4 R  
- 1.7 Kg, front  
- 2.4 Kg, rear

on MY11 RSV4 R with APRC  
- 0.4 Kg, front  
- 1.4 Kg, rear

ÖHLINS TTX36 REAR SHOCK ABSORBER

1.908.-  
894912

- Created especially for the RSV4
- Fully adjustable
- Equippable with linear sensors
- Head and calliper mounting bracket made entirely from billet aluminium

ÖHLINS FACTORY REAR SHOCK ABSORBER

726.-  
895334

- Öhlins rear shock absorber (OEM part on "Factory" version), available as an accessory for the R version
- Maximum performance on the road with true racing looks
- Replaces the standard unit without modification to the suspension mounts and linkage

HYDRAULIC PRELOAD KIT  
TTX36 SHOCK ABSORBER

897995

ÖHLINS FACTORY STEERING DAMPER

330.-  
894913

- Öhlins steering damper (OEM part on "Factory" version), available as an accessory for the R version
- Maximum performance on the road with true racing looks
- Replaces the standard unit without modification to the frame mounts

ÖHLINS FACTORY FRONT FORK KIT  
ÖHLINS FACTORY FRONT FORK KIT RSV APRC

2.292.- 896267  
1.860.- 899328

- Includes Öhlins OEM front fork on "Factory" version and the lower steering plate (the upper steering plate on the bike is already compatible with this Öhlins fork)
- Can be mounted without having to replace the existing brake disks, brake calipers and rims

DISC LOCK

336.-  
898735

- Roadlok® is an innovative disk lock and vehicle immobiliser antitheft device been created to respond to the requisites for security and practicality of all RSV4 owners
- The lock is mounted permanently on the vehicle and impedes any movement of the vehicle itself, eliminating the risk of damaging the bike should you forget to release the lock
- Simple to use, practical (the only part removed is a pin inserted into the disc ventilation holes, solving the storage problem associated with regular disc locks due to the lack of space under the saddle of the RSV4) and extremely secure
- The lock has Thatcham MC1 certification, which guarantees the resistance of the antitheft system against attempted forcing, and is currently undergoing SRA certification
- Machined from a single billet of aluminium and anodised, the device features Ergal bushes, screws in class 8.8 steel and a lock and pin in high strength steel
- The lock is the most secure unit available on the market today, with 1.5 million combinations
- Applicable to RSV4 Factory and R, MY09 and MY11

MOTORCYCLE COVER

156.-  
894866

- Indoor cover • In breathable Lycra • Two-tone black and red colour scheme
- With Aprilia and RSV4 logos

REAR PADDOCK STAND

222.-  
894870

- In high tensile steel • Powder coated • Bearing-mounted nylon wheels
- Lateral plate in steel with laser-cut logo

REAR PADDOCK STAND

AP8705021

- Ideal for maintenance whether in the pits or in your garage
- Allows the rear wheel to be replaced quickly and conveniently

CARBON EXTRACTOR KIT

282.-  
894871

- Component made from triple layer composite (carbon/kevlar/carbon) with radiused corners and matte finish varnish coating • Supplied with fastener hardware for installation (if necessary), personalised decals if applicable and multilingual instruction manual
- Homologated for road use

RH CARBON FAIRING KIT  
LH CARBON FAIRING KIT

355.-  
355.-

895398  
895399

- Component made from triple layer composite (carbon/kevlar/carbon) with radiused corners and matte finish varnish coating • Supplied with fastener hardware for installation (if necessary), personalised decals if applicable and multilingual instruction manual
- Homologated for road use

CARBON TUB KIT

719.-  
895400

- Component made from triple layer composite (carbon/kevlar/carbon) with radiused corners and matte finish varnish coating • Supplied with fastener hardware for installation (if necessary), personalised decals if applicable and multilingual instruction manual
- Homologated for road use

RH CARBON TAIL FAIRING KIT  
LH CARBON TAIL FAIRING KIT

396.-  
396.-

895402  
895403

- Component made from triple layer composite (carbon/kevlar/carbon) with radiused corners and matte finish varnish coating • Supplied with fastener hardware for installation (if necessary), personalised decals if applicable and multilingual instruction manual
- Homologated for road use

CARBON FRONT FAIRING KIT

1.199.-  
895405

- Component made from triple layer composite (carbon/kevlar/carbon) with radiused corners and matte finish varnish coating • Supplied with fastener hardware for installation (if necessary), personalised decals if applicable and multilingual instruction manual
- Homologated for road use

**FRONT CARBON MUDGUARD KIT**

**318.-**  
895394

- Component from polished carbon fibre (with matte finish) • Fits onto the standard calliper mounting brackets for sportier looks evocative of the Factory version
- Weight saving • Homologated for road use
- Front carbon mudguard for USA: code 896184

**REAR CARBON MUDGUARD KIT**

**180.-**  
895395

- Component from polished carbon fibre (with matte finish) • Fits onto the standard swingarm for sportier looks evocative of the Factory version • Weight saving
- Homologated for road use

**RH CARBON SIDE FAIRING KIT  
LH CARBON SIDE FAIRING KIT**

**132.-**  
**132.-**  
895396  
895397

- Component made from varnished (matte finish) carbon fibre
- Used to replace the plastic side fairings to give the bike sportier looks evocative of the Factory version • Weight saving • Homologated for road use

**CARBON TANK COVER KIT**

**192.-**  
895406

- Component made from triple layer composite (carbon/kevlar/carbon) with radiused corners and matte finish varnish coating • Supplied with fastener hardware for installation (if necessary), personalised decals if applicable and multilingual instruction manual
- Homologated for road use

**CARBON GUARD KIT  
FOR STANDARD EXHAUST**

**96.-**  
895319

- In 200g carbon fibre with an inner heat insulation layer
- Fits onto standard exhaust
- Sportier looks and reduced weight

**REAR SWING ARM  
SCRATCH PROTECTION  
KIT - CARBON FIBRE**

**110.-**  
898373

- Component made from carbon fibre

**CARBON HEEL GUARD KIT**

**84.-**  
895318

- In 200g carbon fibre • Less weight and sportier looks
- Also compatible with optional adjustable footpegs

TANK COVER

162.-  
894869

- In technical fabric with carbon effect inserts
- With fasteners for small and large tank bags
- Tested, approved resistance to oil, fuel and UV light. Ensures ergonomics and stability even at higher speeds
- Features a hole for refuelling without removing the cover
- With contoured electrostatic tank protector

SMALL TANK BAG  
LARGE TANK BAG

120.-  
162.-  
894868  
897049

- In technical fabric with carbon effect inserts
- With fasteners for tank cover
- Tested, approved resistance to oil, fuel and UV light. Ensures ergonomics and stability even at higher speeds
- The small (3 litre) and large (9 litre) tank bags are secured to the tank cover with quick release buckles
- With upper map pocket and rain hood
- A handle and shoulder strap make the small bag easy to carry

# TUONO V4

AKRAPOVIC EVO1 COMPLETE RACING EXHAUST SYSTEM

CARBON 2.870.-  
TITANIUM 2.750.-

894732  
897318

• Complete Akrapovic racing exhaust system for track use made entirely from titanium with oval muffler in carbon or titanium • The cylinder head mating flanges are machined from solid billet aluminium while the silencer mounting brackets are in carbon fibre • The whole system weighs less than 5 kg and delivers a healthy increase in torque above 4,500 rpm, which is particularly notable from 4,500 to 8,000 rpm, significantly improving acceleration out of turns • Includes dedicated ECU mapping (with three R/S/T settings) to exploit the full potential of the exhaust • Unlike the standard ECU mapping, all three R, S and T maps deliver unlimited power - the S ECU mapping offers smoother response, whereas the R mapping limits torque in the first three gears • For track use only

AKRAPOVIC HOMOLOGATED SLIP-ON EXHAUST KIT INCLUSIVE OF RACING HEADER

CARBON 1.440.-  
TITANIUM 1.440.-

B043763  
B043764

• The kit consists of a hexagonal cross section carbon fibre or titanium silencer with extractable Db-killer, titanium header with catalytic converter, and titanium racing header with no catalytic converter • In the configuration with the Db-killer installed and the header with catalytic converter, the exhaust is homologated compliant with Euro3 sections 5 and 9 (emissions and noise) and may be used on public roads without modifying carburetion parameters • Fits onto the standard exhaust header and fastened to the passenger footrest with a specific bracket • An aluminium bracket is available separately for fastening the silencer to the bike without the passenger footrest • When replacing the header with the component supplied in the kit with no catalytic converter and removing the Db-killer, the exhaust system is considered a racing system and loses homologation, and can no longer be used on the public road. In this case, the specific ECU mapping - included with the kit on request - must be installed using the same procedure as used for the complete Evo Racing exhaust

**ALUMINIUM BRACKET KIT FOR COMPLETE RACING EVO EXHAUST**

**126.-**  
**895430**

- Aluminium silencer mounting bracket
- For track use only

**ALUMINIUM BRACKET KIT FOR SLIP-ON EXHAUST**

**138.-**  
**896180**

- Aluminium silencer mounting bracket
- For a sportier configuration with no passenger footpegs
- For track use only

**RACE ECU KIT**

**600.-**  
**896309**

- Dedicated engine control unit for track use, pre-programmed with racing ECU mappings
- For use on bikes fitted with aftermarket exhaust systems (complete systems or slip-on muffler) NOT supplied by Aprilia
- Recommended for use in combination with exhausts with no catalytic converter, with or without Db-killer
- Dedicated ECU mapping (with three R/S/T settings) to exploit the full potential of the exhaust
- Unlike the standard ECU mapping, all three R, S and T maps deliver unlimited power - the S ECU mapping offers smoother response, whereas the R ECU mapping limits torque in the first three gears
- After installation of ECU by an authorised Aprilia service centre, later updates may be downloaded and installed
- For track use only

**ADJUSTABLE LICENSE PLATE MOUNTING KIT**

**192.-**  
**895323**

- In laser-cut steel
- With white LED license plate light
- Gives the bike a sleeker and sportier look
- For track use only

**ADJUSTABLE ALUMINIUM FOOTPEG KIT**

**936.-**  
**899814**

- Made entirely from billet aluminium
- Adjustable with 9 different footpeg settings
- Fine adjustment of gear and brake levers
- With provision for standard brake light switch and for inverted gear lever installation
- For track use only

RACING CHAIN

318.-  
895408

SPROCKET IN HARD ANODIZED ERGAL  
FOR RACING CHAIN

Z = 40 84.-  
Z = 42 84.-

896164  
896165

PINION  
FOR RACING CHAIN

Z = 15 32.-  
Z = 16 32.-

896167  
896168

- Racing final drive kit for TUONO V4, consisting of:
- Regina Racing ORNV6W chain with 520 pitch (used by the major Superstock world championship teams)
- Hard anodised Ergal sprocket (40 or 42 teeth)
- Lightweight steel pinion (15 or 16 teeth)
- For track use only

The following possible combinations may be installed to reduce rotating masses (all components are lighter than their standard counterparts, the whole kit saves weight by 850 g) and improve acceleration:

- chain, sprocket with 40 teeth and pinion with 16 teeth (drive ratio 2.500)
- chain, sprocket with 42 teeth and pinion with 16 teeth (drive ratio 2.625)
- chain, sprocket with 40 teeth and pinion with 15 teeth (drive ratio 2.667)
- chain, sprocket with 42 teeth and pinion with 15 teeth (drive ratio 2.800)

ATTENTION: THIS COMBINATION REQUIRES THE USE OF THE 520 PITCH RACING CHAIN - THE SPROCKET AND PINION CANNOT BE USED WITH THE STANDARD CHAIN OR IN COMBINATIONS WITH THE STANDARD SPROCKET AND PINION

N.B.: IT IS RECOMMENDED THAT THE FINAL DRIVE COMPONENTS ARE REPLACED EVERY 4000 KM OR EARLIER IF SIGNS OF EXCESSIVE WEAR ARE NOTED (DEPENDING ON RIDING STYLE AND CONDITIONS)

ALUMINIUM FRONT WHEEL RIMS  
BLACK FORGED REAR WHEELS

1.356.-  
1.440.-

895409  
895410

- Made from forged aluminium alloy
- Engineered using advanced simulation and modelling tools such as FEM analysis, these wheel rims offer a weight saving over the standard components while still ensuring unrivalled robustness
- The resulting reduction in gyroscopic effect and unsprung weight translates to unparalleled responsiveness and agility

**ÖHLINS FRONT FORK KIT**

**1.860.-**  
**899328**

- Includes the Öhlins FG616 front fork, fitted as standard, and the lower steering yoke (the upper yoke is already compatible with the Öhlins fork) • Installable without having to replace the existing brake discs, callipers and rims

**ÖHLINS TTX36 REAR SHOCK ABSORBER**

**1.908.-**  
**894912**

- Fully adjustable • Equippable with linear sensors
- Head and calliper mounting bracket made entirely from billet aluminium

**ÖHLINS REAR SHOCK ABSORBER**

**726.-**  
**895334**

- Maximised performance on the road and track with genuine racing looks
- Replaces the standard unit without modification to the suspension mounts and linkage

**TTX SHOCK ABSORBER HYDRAULIC PRELOAD KIT**

**897995**

**ÖHLINS STEERING DAMPER**

**330.-**  
**894913**

- Maximised performance on the road and track with genuine racing looks
- Replaces the standard unit without modification to the frame mounts

## MOTORCYCLE COVER

**B043847**

- Protects the bike totally against dust, scratches and minor knocks
- Made to measure entirely in Italy • Minute attention to detail
- Antistatic, warp-knit fabric • Slightly elasticated

## STAND PIN KIT

**B043816**

- In billet aluminium
- Protective nylon crash pad
- Design with concealed fastener screw

## DISC LOCK

**336.-**

**898735**

- Roadlok® is an innovative disk lock and vehicle immobiliser antitheft device that combines security with practicality
- The lock is mounted permanently on the vehicle and impedes any movement of the vehicle itself, eliminating the risk of damaging the bike should you forget to release the lock
- Simple to use, practical (the only part removed is a pin inserted into the disc ventilation holes, eliminating the storage problem associated with regular disc locks) and extremely secure
- The lock has Thatcham MC1 certification, which guarantees the resistance of the antitheft system against attempted forcing, and is currently undergoing SRA certification
- Machined from a single billet of aluminium and anodised, the device features Ergal bushes, screws in class 8.8 steel and a lock and pin in high strength steel
- The lock is the most secure unit available on the market today, with 1.5 million combinations

- Ideal for maintenance whether in the pits or in your garage
- Allows the rear wheel to be replaced quickly and conveniently

**FRONT CARBON MUDGUARD KIT**

**318.-**  
**895394**

- Component made from varnished (matte finish) carbon fibre
- Weight saving • Homologated for road use
- Front carbon mudguard for USA: code 896184

**REAR CARBON MUDGUARD KIT**

**180.-**  
**895395**

- Component made from varnished (matte finish) carbon fibre
- Weight saving • Homologated for road use

**RH CARBON SIDE FAIRING KIT  
LH CARBON SIDE FAIRING KIT**

**132.-**  
**132.-**  
**895396**  
**895397**

- Component made from varnished (matte finish) carbon fibre
- Used to replace the plastic side fairings to give the bike sportier looks • Weight saving
- Homologated for road use

**REAR SWING ARM SCRATCH  
PROTECTION KIT - CARBON FIBRE**

**110.-**  
**898373**

- Component made from carbon fibre

**CARBON TANK COVER KIT**

**192.-**  
**895406**

- Component made from triple layer composite (carbon/kevlar/carbon) with radiused corners and matte finish varnish coating
- Supplied with fastener hardware for installation (if necessary), personalised decals if applicable and multilingual instruction manual
- Homologated for road use

**CARBON HEEL GUARD KIT**

**84.-**  
**895318**

- In 200g carbon fibre • Less weight and sportier looks
- Also compatible with optional adjustable footpegs

**TANK COVER**

**162.-**  
**894869**

- In technical fabric with carbon effect inserts
- With fasteners for small and large tank bags
- Tested, approved resistance to oil, fuel and UV light. Ensures ergonomics and stability even at higher speeds
- Features a hole for refuelling without removing the cover
- With contoured electrostatic tank protector

**SMALL TANK BAG  
LARGE TANK BAG**

**120.-**  
**162.-**  
**894868**  
**897049**

- In technical fabric with carbon effect inserts
- With fasteners for tank cover
- Tested, approved resistance to oil, fuel and UV light. Ensures ergonomics and stability even at higher speeds
- The small (3 litre) and large (9 litre) tank bags are secured to the tank cover with quick release buckles
- With upper map pocket and rain hood
- A handle and shoulder strap make the small bag easy to carry

APRILIA BY ARROW HOMOLOGATED SLIP-ON EXHAUST KIT  
RACING DB KILLER (100 dB) KIT

1140.-  
90.- 890250  
894942

- Titanium silencers with carbon end-caps and steel headers for a total weight reduction of almost 7 Kg compared with the standard system • Sporty looks, spine-tingling sound, maximum performance on the road • Euro3 compliant • Even higher performance for track use achievable by removing the dBkiller devices or fitting the accessory dB Killer devices for track use • Installation without clamps for cleaner looks

Euro3

CLUTCH HOUSING GUARD KIT

35.-  
894089

- Made from laser-cut stainless steel • Supplied with fastener hardware
- Standard on Dorsoduro Factory

HAND MIRROR IN ALUMINIUM  
HOMOLOGATED

LEFT 192.-  
RIGHT 192.- 890471  
890272

- Accessory in billet aluminium • Friction mount adjuster screws for the optimum setting
- Convex glass for optimum visibility • Designed in collaboration with Aprilia style centre • Tested in-house in accordance with the most stringent Aprilia quality standards

**ALUMINIUM FRONT WHEEL RIMS  
GOLD FORGED REAR WHEELS**

**896312  
896313**

- Maximum performance on the track and on the road • In forged aluminium
- Reduced power absorption and reduced steering torque due to the use of a lightweight material and forging technology • Improved handling
- The reduced weight improves the bike's balance and dynamic behaviour

**COMFORT SADDLE WITH GEL**

**135.-  
890252**

- Saddle padded with gel and special material • Maximum grip for rider • Exposed stitching
- Developed in collaboration with the Aprilia style centre • For the user who demands maximum comfort and style

#### AJUSTABLE REAR SHOCK ABSORBER KIT

**564.-**  
**890253**

- Shock absorber with separate canister
- With fully adjustable compression and rebound
- Improved riding comfort and wheel dynamics
- Reduces possibility of losing contact with ground
- Standard on Dorsoduro Factory

#### ENGINE GUARD KIT

**156.-**  
**894085**

- Fastener pins in billet aluminium
- Bumpers in machined nylon

#### WHEEL AXLE CRASH PAD KIT

**108.-**  
**890259**

- The bumper kit reduces the possibility of damage to costly mechanical components (discs, front brake callipers, calliper mounting brackets, rear brake calliper) and allows the bike to be ridden safely again after a fall

#### FOOTPEG RUBBER KIT

**35.-**  
**890256**

- Greater comfort and a surer grip for the rider, especially when not wearing riding boots
- These components offer an additional barrier against vibration transmission

#### MOTORCYCLE COVER

**126.-**  
**894873**

- Protects the bike totally against dust, scratches and minor knocks
- Made to measure entirely in Italy
- Minute attention to detail
- Antistatic, warp-knit fabric
- Slightly elasticated

#### PASSENGER GRAB-HANDLE KIT

**54.-**  
**890686**

- Made in metal and designed for maximum passenger ergonomics

**GOLD COLOURED CHAIN KIT**

**129.-**  
890255

- For even better performance with new seal rings • The ideal choice for more demanding or extreme applications • Pins and plates in special steel alloy
- Bedding-in preload • Gold coloured links to further enhance the visual impact of the mechanicals

**SPROCKET IN HARD  
ANODISED ERGAL**

**HOMOLOGATED Z = 46 117.- 890254**

**RACING RACING Z = 47 117.- 894083**  
**Z = 48 117.- 894084**

- In ergal • Manufactured to extremely high standards • Light and extremely strong • Recommended for a more professional biased use
- Dark grey • Compatible with standard or gold coloured chain

**BRAKE LEVER  
CLUTCH LEVER**

**93.-**  
**93.-** 890257  
890258

- Accessory in billet aluminium
- For track use only

**BRAKE FLUID TANK COVER  
CLUTCH OIL RESERVOIR COVER**

**57.-**  
**57.-** 890273  
890274

- Accessory in billet aluminium
- For track use only

**RACING RIDER FOOTPEG KIT**

**210.-**  
890270

- Offers rider a surer grip
- For track use only

**ADJUSTABLE LICENSE PLATE MOUNTING KIT**

**192.-**  
890271

- Accessory in laser-cut steel • Eye-catching design • Uses original licence plate light • Adjustable angle • Includes mounting for original reflector • For track use only

#### SIDE TANK BAGS KIT

**180.-**  
894859

- Matching with tank cover and easy to fasten thanks to high-strength zips
- Ideal for further increasing load capacity
- Waterproof cover also included

#### SADDLE BAG KIT

**265.-**  
894860

- Innovative saddlebag consisting of a backpack that fastens onto a nylon base with side pockets
- With shoulder straps
- Once the backpack is removed and worn, the base remains fixed to the bike without compromising passenger comfort

#### TANK COVER

**138.-**  
894857

- Made from nylon and PVC
- With embroidered logos
- Gives the Dorsoduro an even more aggressive look
- Allows fitment of the dedicated tank bag, the special side bags or both

#### TANK BAG

**156.-**  
894858

- Extensible
- With practical pockets and a carry handle
- Fastens onto tank cover with quick release clips and an adjustable fastener
- Includes rain hood

#### SEMI-RIGID PANNIER KIT

**359.-**  
856955

- Dynamic safety and maximum protection for your luggage
- Made from technical Skay
- Extremely simple to fit and fasten onto the lateral mounts
- Elegant and spacious with a total capacity of 42 litres
- Equipped with reflectors to increase night visibility
- Padlockable
- Complete with rain hood

#### SEMI-RIGID PANNIER MOUNT KIT

**138.-**  
890143

- Maximum durability and practicality
- Made in high strength material
- Media blasted and cataphoresis treated against corrosion and wear
- Allows fitment of side panniers
- Integrated design

HIGH FRONT MUDGUARD KIT IN CARBON

282.-  
897593

- Component made from twill weave multilayer carbon fibre
- Matte surface finish (polished and unpainted)
- Supplied with fastener hardware for installation, if necessary
- Standard on Dorsoduro Factory

LOW FRONT MUDGUARD KIT IN CARBON

270.-  
894854

- Component made from twill weave multilayer carbon fibre
- Matte surface finish (polished and unpainted)
- Supplied with fastener hardware for installation, if necessary

REAR CARBON MUDGUARD KIT

- Component made from twill weave multilayer carbon fibre
- Matte surface finish (polished and unpainted)
- Supplied with fastener hardware for installation, if necessary

DISC LOCK

336.-  
898735

- Roadlok® is an innovative disk lock and vehicle immobiliser antitheft device that combines security with practicality
- The lock is mounted permanently on the vehicle and impedes any movement of the vehicle itself, eliminating the risk of damaging the bike should you forget to release the lock
- Simple to use, practical (the only part removed is a pin inserted into the disc ventilation holes, solving the storage problems usually associated with regular disc locks) and extremely secure
- The lock has Thatcham MC1 certification, which guarantees the resistance of the antitheft system against attempted forcing, and is currently undergoing SRA certification
- Machined from a single billet of aluminium and anodised, the device features Ergal bushes, screws in class 8.8 steel and a lock and pin in high strength steel
- The lock is the most secure unit available on the market today, with 1.5 million combinations

PASSENGER GRAB-HANDLE KIT

54.-  
890686

- Made in metal and designed for maximum passenger ergonomics

MOTORCYCLE COVER

126.-  
894873

- Protects the bike totally against dust, scratches and minor knocks
- Made to measure entirely in Italy • Minute attention to detail
- Antistatic, warp-knit fabric • Slightly elasticated

RACING CHAIN	318.- 895408	<ul style="list-style-type: none"><li>• Racing final drive kit for Dorsoduro 1200 consisting of a Regina Racing ORNV6W chain with 520 pitch (as used by the major Superstock world championship teams), a hard anodised Ergal pinion with 40 teeth and a lightweight steel pinion with 16 teeth</li><li>• For track use only</li><li>• Installing these three components together reduces rotating masses (all components are lighter than their standard counterparts, while the whole kit saves weight by 850 g) and improves acceleration</li></ul>
SPROCKET IN HARD ANODIZED ERGAL Z = 40 FOR RACING CHAIN	84.- 896164	
PINION FOR RACING CHAIN Z = 16	32.- 896168	

ATTENTION: THIS COMBINATION REQUIRES THE USE OF THE 520 PITCH RACING CHAIN - THE SPROCKET AND PINION CANNOT BE USED WITH THE STANDARD CHAIN OR IN COMBINATIONS WITH THE STANDARD SPROCKET AND PINION

N.B.: IT IS RECOMMENDED THAT THE FINAL DRIVE COMPONENTS ARE REPLACED EVERY 4000 KM OR EARLIER IF SIGNS OF EXCESSIVE WEAR ARE NOTED (DEPENDING ON RIDING STYLE AND CONDITIONS)

ADJUSTABLE LICENSE PLATE MOUNTING KIT	198.- 899815
---------------------------------------	-----------------

- Accessory in laser-cut steel
- Eye-catching design
- Uses original licence plate light
- Adjustable angle
- Includes mounting for original reflector
- For track use only

LATERAL TANK BAG KIT

180.-  
899568

- Usable with tank cover • Fastened with practical high-strength zips
- Ideal for further increasing load capacity
- Rain hood also included

SADDLE BAG KIT

265.-  
894860

- Innovative saddlebag consisting of a backpack that fastens onto a nylon base with side pockets • With shoulder straps • Once the backpack is removed and worn, the base remains fixed to the bike without compromising passenger comfort

TANK COVER

138.-  
899566

TITANIUM SILENCER KIT FOR SXV

1056.-  
853816

• An exhaust system developed directly in the race arena in a collaboration between Aprilia Off Road Racing Team and the R&D team of Akrapovic Off Road • Silencer made entirely from titanium (interior and exterior) with carbon end-caps • Equipped with spark-arrester to prevent backfiring, and a mounting clamp in carbon • This exhaust may only be used in conjunction with the Aprilia by Akrapovic pipe kit, part No. 851442 or part No. 851443 • Exclusively for competition use in circuits closed to public traffic • Requires purchase of Racing Undertail Kit, part No. 851450

MAINTENANCE KIT FOR TITANIUM EXHAUST FOR SXV

162.-  
853817

• Includes the material necessary to service the Akrapovic lateral exhaust and restore full functionality • Consists of a sound absorbing cartridge, clamps and rivets

SXV PIPE KIT IN

STEEL 702.-  
TITANIUM 1092.-  
851442  
851443

• Front and rear header pipes made entirely of titanium or steel  
• For Aprilia by Akrapovic silencers, part No. 853816 (note: these products are NOT compatible with standard production parts)  
• Exclusively for competition use in circuits closed to public traffic

#### RACING KIT FOR SXV

39.-  
851377

- Front panel kit to make your SXV race-ready • Replaces the headlight to carry the front race number in compliance with F.M.I. regulations • Total functionality without compromising the looks of your bike • Exclusively for competition use in circuits closed to public traffic

#### RACING DECALS KIT

WHITE 46.- 853935  
YELLOW 46.- 853936  
RED 46.- 853937  
GREEN 46.- 853938

- Includes coloured racing decals for: front race number panel, headlight panel, left and right side panels, right side panel for side exhaust • Exclusively for competition use in circuits closed

#### STARTING DEVICE KIT

90.-  
851090

- System that locks the front fork in compression • Indispensable for supermoto race starts • Exclusively for competition use in circuits closed to public traffic

#### HAND RACE NUMBER PANEL

LEFT 24.- AP9100286  
RIGHT 24.- AP9100285

- Side race number panel compliant with F.M.I. regulations • Functional and stylish
- Made from high strength polypropylene • Replaces the standard side panel and uses the same fasteners • Exclusively for competition use in circuits closed to public traffic

#### RIGHT HAND SIDE PANEL KIT FOR AKRAPOVIC EXHAUST

24.-  
851448

- This side panel is used to replace the original standard part when installing an Akrapovic exhaust system with lateral silencer • Exclusively for competition use in circuits closed to public traffic

#### RACING UNDERTAIL KIT FOR SXV

39.-  
851450

- Rear shock absorber guard
- For use on bikes fitted with Aprilia by Akrapovic exhaust
- Exclusively for competition use in circuits closed to public traffic

LOWERED SADDLE FOR RXV

99.-  
851095

- Approximately 20 mm lower than standard measurement
- Allows greater bike control, even for riders of medium-short stature
- Exclusively for competition use in circuits closed to public traffic

LOWERED SADDLE FOR SXV

89.-  
851193

- Approximately 20 mm lower than standard measurement
- Allows greater bike control, even for riders of medium-short stature
- Exclusively for competition use in circuits closed to public traffic

SADDLE FOR OVERSIZED TANK RXV SXV

95.-  
853841

- Required when fitting the oversized fuel tank
- Exclusively for competition use in circuits closed to public traffic

OVERSIZED FUEL TANK RXV SXV

306.-  
898640

- The slender design makes it possible to increase tank capacity to 12 litres
- Exclusively for competition use in circuits closed to public traffic

HAND GUARD KIT FOR SXV

117.-  
851084

- Pivot and reinforcement structure for maximum protection • Total protection during falls
- Exclusively for competition use in circuits closed to public traffic

RACING AIR FILTER KIT (CAGE AND FILTER)

64.-  
851369

- Includes foam air filter and mounting basket
- Exclusively for competition use in circuits closed to public traffic

RADIATOR GUARD KIT IN ALUMINIUM

851120  
87.-

- Protects radiator in the event of a fall
- Exclusively for competition use in circuits closed to public traffic

REAR SPROCKET - WITH MUD  
GROOVE - HARD ANODIZED ERGAL

Z=48	95.-	851391
Z=49	95.-	851392
Z=50	95.-	851393
Z=51	95.-	851394

- Sprocket with different number of teeth than standard component • For maximum traction in all terrain conditions • Specific configuration to clear excess mud accumulating in gaps • Exclusively for competition use in circuits closed to public traffic

PAIR OF RACING FRONT PADS FOR SXV

62.-  
851408

- For maximum braking performance on the track
- Exclusively for competition use in circuits closed to public traffic

SHOCK ABSORBER SPRING FOR SXV K= 5.4 KGF/MM  
K= 5.8 KGF/MM

56.-  
851093  
851094  
84.-

- Rear shock absorber spring available with different compression loads
- Offers the user the possibility of adjusting the feel of the bike to their own weight, stature and riding style
- Exclusively for competition use in circuits closed to public traffic

SHOCK ABSORBER SPRING FOR RXV K= 4.5 KGF/MM  
K= 5.0 KGF/MM

71.-  
851091  
851092  
71.-

- Rear shock absorber spring available with different compression loads
- Offers the user the possibility of adjusting the feel of the bike to their own weight, stature and riding style
- Exclusively for competition use in circuits closed to public traffic

FORK SPRING KIT SACHS - SUPERMOTARD 0.45 KGF/MM SOFT  
0.50 KGF/MM HARD

132.-  
851088  
851089  
132.-

- Allows the characteristics of the front fork to be modified to suit the weight, stature and riding style of the rider
- Exclusively for competition use in circuits closed to public traffic

FORK SPRING MARZOCCHI - ENDURO 0.50 KGF/MM HARD  
0.45 KGF/MM SOFT

143.-  
851087  
851086  
143.-

- Allows the characteristics of the front fork to be modified to suit the weight, stature and riding style of the rider
- Exclusively for competition use in circuits closed to public traffic

HANDLEBAR BUMPERS

21,90  
853702

- Optimum protection for the rider against contact with the handlebar and upper yoke in the event of violent impact
- Mandatory in many race classes

APRILIA OFF ROAD MOTORCYCLE COVER

132.-  
854613

- Protects the bike totally against dust, scratches and minor knocks
- Made to measure entirely in Italy
- Minute attention to detail
- Antistatic, warp-knit fabric
- Slightly elasticated

CUSTOMIZE**

SPORTCITY CUBE 300 / 125  
SPORTCITY ONE 125 / 50 4 STROKE / 50 STREET  
ATLANTIC 300 / 125  
SR 50 R / R FACTORY / STREET  
SR50/125 MOTARD

APRILIA SCOOTERS REPRESENT AN ORIGINAL CONCEPT FOR MOBILITY - A WORLD WHERE BEAUTY, FUNCTION, COMFORT AND DYNAMICS MERGE TO IMPROVE THE QUALITY OF LIFE. ORIGINAL APRILIA ACCESSORIES ARE THE ONLY PRODUCTS DESIGNED DURING THE ACTUAL DEVELOPMENT OF THE INDIVIDUAL MODELS THEMSELVES, TO REFLECT THE CORE VALUES OF THE BRAND AND TO MAKE EACH APRILIA SCOOTER EVEN MORE COMPLETE, PERSONALISED AND SAFE. THESE PRODUCTS HAVE ALL PASSED STRINGENT TESTS THAT RECREATE EVERY POSSIBLE CONDITION AND SITUATION: FROM THE TRAFFIC OF A MAJOR DUAL CARRIAGEWAY TO THE COBBLED STREETS OF A HISTORIC CITY CENTRE. THEY ALSO COME WITH PAINT FINISHES TESTED BY APRILIA AND IN THE SAME COLOUR AS THE SCOOTER. THAT'S WHY ANYONE CHOOSING AN APRILIA SCOOTER ALSO CHOOSES GENUINE APRILIA ACCESSORIES.

# PROTECTION

Tackle any weather and season with confidence with the windscreens and other accessories by Aprilia, conceived to offer maximum wind and weather protection and enhance rider safety through superior quality materials, ergonomic design and minimised turbulence. Designed to complement the style of the different models in the Aprilia range, these accessories make your scooter even more practical and versatile in every situation: the weather's always right for riding an Aprilia.

# TRANSPORT

With the Aprilia range of top boxes, the scooter becomes the perfect means of transport for all your daily necessities: from shopping to leisure and from studying to work. The superior capacity of these accessories means that you can take everything you need with you, moving with ease and agility through the traffic. Their compact dimensions save parking space and maximise safety when on the road. Their style is perfectly coordinated with the design and finish of the scooter: choosing Aprilia always means choosing the best.

# CUSTOMIZE

**The Aprilia top box is more than just an accessory - it is an expression of individual style.** Choose the perfect top box for your own personal needs from the Aprilia range. There's the **New Concept** top box with a textured black finish, the capacious 47 litre **Street Case** top box and the compact **Ovetto** top box, available in a number of different colours to match different models in range and allow you to colour code your scooter to perfection. Alternatively, you could even personalise the **City** top box with the top and bottom protective covers available in a range of colours to match your vehicle (or in a colour of your own preference) and personalised with the name of your Aprilia scooter or motorcycle. Top boxes can also be enhanced with the added comfort of a passenger backrest, which is ideal for both long journeys and short distances.
